SUMMARY

Software Engineer with professional experience building scalable web and mobile applications using the MERN stack. Experienced in developing full-stack solutions for supply chain systems, including purchasing optimization, real-time inventory tracking, workflow automation, and e-commerce integrations. Strong background in delivering production-ready applications that improve system performance, usability, and business efficiency.

EDUCATION

Master of Science in Computer Science

Stevens Institute of Technology, Hoboken, NJ, USA

January 2025 – Present

Bachelor of Engineering in Electronics and Communication

BMS Institute of Technology and Management, Bengaluru, India

July 2017 - August 2021

PROFESSIONAL EXPERIENCE

TechVibrant

Software Engineer

March 2022 - Nov 2024

Bengaluru, India

- Engineered full-stack web applications using **React**, **Node.js**, and **MongoDB**, supporting **real-time inventory tracking** and **automated workflows** used by internal business teams.
- Optimized and strengthened backend performance by improving **RESTful APIs** with **Express** and Sequelize, reducing **API response times by over 35%** through **database query optimization, indexing**, eliminating redundant API calls, and backend refactoring, resulting in improved **system reliability and scalability** under **higher traffic loads**.
- Designed and implemented a **React Flow-based workflow visualization** from scratch in collaboration with clients, translating business requirements into a **core, production-critical feature**.
- Modernized cross-platform mobile applications using **React Native** and **Redux**, delivering **production-ready iOS and Android apps** within aggressive delivery timelines.

Associate Software Engineer

Jan 2022 - Feb 2023

Bengaluru, India

- Built core frontend features for a supply chain platform, including **vendor, buyer, and order management pages** using **React**, directly supporting day-to-day business operations.
- Collaborated on **Shopify-based e-commerce websites**, contributing to **frontend development, UI customization**, and **backend integrations** to deliver client-facing features.
- Contributed to developing an **HR & Payroll system** using **React, Redux Toolkit, Bootstrap, Formik**, and **Yup**, enabling employee data management, leave tracking, and payroll workflows.

Software Developer Intern

June 2021 - Dec 2021

Bengaluru, India

- Implemented basic frontend features using **JavaScript** and **React**, including login pages, simple forms, and UI screens.
- Assisted with **UI testing, bug fixes**, and **screen validation**, improving application stability and usability under guidance from senior engineers.

PROJECTS

ezSCM – Supply Chain Management Platform

Tech Stack: React | React Native | Redux Toolkit | React Query | Material UI | Bootstrap 5 | Stripe | Google Maps API | Azure TFS | i18next

- Built a scalable supply chain management platform using React and React Native, enabling purchasing automation, real-time inventory tracking, and multilingual user support.
- Integrated Stripe payments, Google Maps API for location-based workflows, and optimized state management using Redux Toolkit and React Query to ensure responsive, data-driven user experiences.

BreatheWatch – Air Quality Visualization Web Application

Tech Stack: JavaScript | CSS | Handlebars | Node.js | Express | MongoDB

- Built a data-driven web application using NYC Open Data to visualize neighborhood air quality, enabling search, location comparison, and interactive heatmaps across boroughs.
- Implemented secure server-side rendering with Handlebars, session-based authentication, input validation, and XSS protection to ensure reliable and safe data access.

TECHNICAL SKILLS

Languages: JavaScript, Java, SQL, HTML, CSS, Spring Boot

Frameworks & Libraries: React, Node.js, Express, Redux, React Native, Handlebars, Bootstrap

Databases: MongoDB, MySQL, Sequelize

Tools & Platforms: Git, Postman, VS Code, AWS, Azure TFS, Shopify

Concepts: REST APIs, MVC, Authentication, Session Management, Input Validation, XSS Protection

CERTIFICATIONS

Full Stack Web Development Program - Masai School (2021)

AWS Certified Cloud Practitioner (2024)
